MEMORANDUM FOR RECORD

SUBJECT: Record of Environmental Consideration

1. Project: Establishment of Installation Management Agency (IMA) to be effective October 1, 2002.
2. The Secretary of the Army directed that management of the Army's base operations be transferred from Major Commands to a new field operating agency (FOA) called the Installation Management Agency. This Agency will be organized into a headquarters in the Washington, DC area; four CONUS regional headquarters located at or near existing MACOM headquarters (Rock Island, IL; San Antonio, TX; Atlanta, GA; and Hampton, VA); and three OCONUS regional headquarters to cover Korea, the Pacific (Alaska, Hawaii, Japan), and Europe. Installation organizations will be unaffected by establishment of the IMA.
3. This action is primarily an administration change and is categorically excluded under the provisions of 32 CFR 651 (Appendix B, section (b) 12), and this action falls under the thresholds of all screening criteria. Specific activities that may result from this reorganization, such as personnel actions, construction (no construction is anticipated), real estate leasing, etc. may be further assessed as appropriate. It is not anticipated that any specific actions will result in significant environmental impacts.

Project Proponent:

LARRY J. LUST
Major General, GS
Assistant Chief of Staff
for Installation Management
